Details of Test and Optimization Laboratory

This laboratory offers a unique combination of simulation software, Mobile and lab testing systems to address functional performance, Engineering challenges of Manufacturing Industries.

LMS Test Lab offers you a complete, integrated solution for test-based engineering that combines high speed multi-channel data acquisition with a full suite of integrated testing, analysis and report generation tools.

Specialized Modules

- ❖ LMS Test Laboratory preparatory
- ❖ LMS Test Laboratory -Signature Testing and Analysis
- ❖ LMS Test Laboratory – Model Testing and Analysis
- ❖ 1D Simulation using imagineLab
